FIXTURE BUILDER

Department: Manufacturing
Reports To: Operations Manager
FLSA Status: Non-Exempt
Updated: 09.10.2018

Working at Eckhart is an opportunity to directly impact the future of American manufacturing. We are an Industry 4.0 leader committed to developing advanced manufacturing solutions that enhance the quality of life. Our AUTOCRAFT™ autonomous guided vehicles and FLEXCHECK™ collaborative robotic error-proofing systems lead the market in reliability and dependability. Our suite of solutions includes AGVs, collaborative & traditional robotics, 3D printing, conveyance & automation, highly engineered weld fixtures, lift-assist & ergonomic tooling, and mechanical & electrical engineering services. Our solutions improve employee safety, product quality, and productivity at the largest companies in the world.

Eckhart invests in people because we believe it is our people who differentiate our solutions and our company from our competitors. For over 40 years our company has committed dedicated creative minds to conceptualize and design custom manufacturing solutions for industry. Our customers span medical devices, food, consumer packaged goods, aerospace, automotive, industrial machinery, commercial construction, household appliances, and farm machinery & heavy trucks. We thrive solving our customers' most difficult problems and find satisfaction when customers receive safe and efficient turn-key solutions that enhance their quality of life.

Description

A Fixture Builder must be able to read and understand blueprints to fabricate, repair or setup fixtures with various machining equipment and hand tools. Our goal is not to meet expectations. Our goal is to exceed expectations and ensure our customers receive an exceptional product at Eckhart.

Essential Duties and Responsibilities

- Assembles a variety of standard and non-standard major jigs, fixtures and related tooling.
- Ability to read and interpret 2D and 3D engineering blueprints – NX/Unigraphics.
- Ensures jigs function appropriately with complex angles or contours.
- Responsible for determining methods and sequence of operations and scheduling work to be performed from tool design drawings.
- May be required to verify accuracy and quality in accordance with established control procedures.
- Familiarity with lathes, grinders, drill presses, and manual Bridgeport.
- Basic working knowledge and fundamentals of hydraulic, and pneumatic systems a plus.
- Must be reliable and work well with others.
- Must be willing to learn and advance individual skills.
- Follow instructions given by supervisor quickly and efficiently with minimum supervision.
- Ability to travel 15% of the time to customers for installs.
- Required to have a valid driver's license with no suspensions.
- Ability to obtain clearance to travel internationally (Canada).
